

SALMA WAHEED FAWZY

Data Engineer

+20 100 499 7507 | salmawaheed577@gmail.com | Salma Waheed | Egypt

SUMMARY

Computer Science and Statistics student at Helwan University, currently training in Data Engineering through DEPI. Skilled in Python, SQL, ETL, data pipelines, databases, and Microsoft Azure. Passionate about scalable data systems and turning complex data into insights..

EDUCATION

Helwan University Sep. 2024 – Jun. 2028
Faculty of Science (Statistics and Computer Science) [GPA: 3.378 / 4] Cairo, Egypt
Relevant Coursework: Data Structures, Algorithms, Databases, Probability & Statistics, Machine Learning

EXPERIENCE

Digital Egypt Pioneers Initiative (DEPI) Jul 2026 – Dec 2026
Data Engineer Trainee Cairo, Egypt

- Developed data pipelines with Python and SQL, improving efficiency.
- Built ETL workflows on Microsoft Azure to automate ingestion.
- Managed databases and applied big data tools for scalable solutions.
- Collaborated on cloud-based projects supporting multiple users.

PROJECTS

Cafe Sales Analysis Oct 2026
Analyzed café sales data to highlight top-selling items and revenue trends.

HR Workforce Analysis Sep 2026
Visualized workforce data to show employee distribution and hiring trends.

Student Admission Analysis Sep 2026
Explored admission dataset to uncover acceptance patterns and demographic insights.

SKILLS

Languages: Python (OOP, CLI), SQL
Tools: Microsoft Azure, Jupyter Notebook, Apache Spark, Hadoop, Git, GitHub, Matplotlib, Seaborn
Databases: MySQL, PostgreSQL, SQL Server
Concepts: ETL Workflows, Data Pipelines, Big Data, Cloud Computing, Database Management, Data Engineering, Data Modeling, Data Cleaning, Exploratory Data Analysis (EDA), Data Visualization, Workflow Orchestration (Airflow), Data Warehousing (Star/Snowflake Schema)

CERTIFICATIONS

- AI Literacy - Ministry of Communications & Microsoft Jun 2026
- Cisco Networking Academy - Introduction to Modern AI Aug 2026

LANGUAGES

Arabic – Native
English – Intermediate (B1)
